

UGANDA

STATE OF UGANDA : IDENTIFYING AND PHASING PROJECTS WITH THE SUPPORT OF PPIAF

LONG TERM
EXTERNAL
RESOURCES

State of Uganda

Public-Private Infrastructure Ad- visory Facility (PPIAF)

SPECIFICITIES OF THE INSTRUMENT

- Support through a subsidy to the country in order to identify its project pipeline and to structure it. Enhances the visibility to attract private investors
- Objective: build an incinerator with a capacity of 210.000 tons/years. Implement a mechanism that allows local governments which cannot afford this type of plant to get one without supporting the risk associated with the subsidy's granting process.
- Implementation of a national strategic plan to create PPP
